

Axcient x360Cloud for Microsoft 365 and Google Workspace Backup. Search. Restore. Audit.

Axcient

Protect business productivity applications with x360Cloud for Microsoft 365 and Google Workspace

Data loss happens, even in the cloud. But can your clients afford to lose important emails, contacts, calendars, and work documents? Unfortunately, user errors including accidental deletion, malware infections, hackers, or malicious employees pose serious risk to your clients' productivity. x360Cloud for Microsoft 365 and Google Workspace ensures that the data used in an organization's instance is backed up, protected, restorable, and compliant.

x360Cloud can be used to automatically **discover, backup, audit, search, and then restore** critical data in **Microsoft 365**:

- Exchange: Email, Calendar, Contacts, Archive mailbox
- OneDrive
- SharePoint
- Teams data

Plus, **Google Workspace**:

- Gmail
- Calendar
- Contacts
- Drive
- Sites
- Shared Drives

With x360Cloud, Microsoft 365 and Google Workspace data is backed up to the encrypted, tamper-proof **Axcient Cloud**. With access verified, logged, and protected through MFA, immutable data with AirGap, plus bundled flat fee storage and retention, MSPs can rest assured that their client data is secure.

Critical capabilities of x360Cloud:

- **SmartSearch** for fast full-text search across users and services for a single-click restore
- Quick and easy to setup – deploy in less than 10-minutes
- Axcient is SOC 2 certified and can help you be compliant with HIPAA and GDPR
- **Pooled storage** and secure long-term retention for Microsoft or Google data
- **AirGap** to protect your backups against unwanted deletion for immutable data
- Rich filtering to restore or satisfy e-discovery requests or export immutable audit logs and granular backup reports to support third party auditing
- **SharePoint folder browser and point-in-time** restore
- **PST Export** for quick export and import, compliance and audit readiness, and archiving
- Detailed dashboards and granular reports
- Immutable audit logs and extensive diagnostic details
- Best-in-class remediation workflows
- **Progress and status indicators** and holistic monitoring of all system and user activities

x360Cloud automatically discovers and subsequently backs up new containers up to 3 times per day to minimize potential data loss in a disaster. Also, automated alerting through a PSA demonstrates how x360Cloud is working to protect your client business data.

As an Axcient partner, you can trust x360Cloud for Microsoft 365 and Google Workspace as a secure and dependable tool that empowers you to provide your clients with the highest level of profitable **business continuity service**.

KEY FEATURES:

Automated backup of Microsoft 365 and Google Workspace data with the Axcient Cloud, providing total data protection

Instant full-text search and rich search filtering, ensuring easy and immediate data accessibility

Granular and/or mass restores of data into Microsoft 365 and Google Workspace applications

Monitoring and alerting (optionally through PSA) that provides extensive backup diagnostics and intuitive remediation workflows, reducing administrative burden

Transparent and simple automated onboarding experience that helps you gain expectations of data protection timelines for new clients

Comprehensive and complete regulatory compliance with secure encryption, immutable audit logs, multi-factor authentication, and Axcient's exclusive **AirGap®** technology to prevent deletion

Features:

AUTOMATED BACKUP OF CLOUD APPLICATION DATA IN THE AXCIENT CLOUD WITH AIRGAP® TECHNOLOGY:

- Backup Exchange Online, OneDrive, SharePoint, and Teams data
- Backup of Google Workspace Contacts, Calendar, Gmail, Sites, Drive, and Shared Drives
- Multiple redundant Amazon S3 storage architecture with server-side encryption
- Automatic discovery and automatic backup of new users, containers, and SharePoint sites
- Daily backups and a backup SLA over 99.99%
- Backed up to the Axcient Cloud with the exclusive AirGap® data immutability.

COMPREHENSIVE OVERVIEW OF x360CLOUD DATA BACKUP

- Detailed dashboards, reports, and monitoring of all system, user, and backup activities
- Active response through notifications with detailed backup diagnostics and remediation workflows
- License management
- PST Export

GRANULAR AND/OR MASS RESTORE ON FILES, FOLDERS, AND/OR DOCUMENT LIBRARIES IN CLOUD APPLICATIONS:

- Select Microsoft 365 or Google Workspace data to restore
- Specific date, time, and version restores
- Worry free pooled storage and long-term retention including unlicensed and deleted users and shared mailboxes
- Cross-user restore
- View the contents of the email or documents, before the restore
- SharePoint folder browser and point-in-time restore.

INSTANT FULL-TEXT SEARCH, CROSS-SERVICE SEARCH, AND RICH FILTERING

- Instant full-text search of Microsoft 365 and Google Workspace data
- Search across historical snapshots and version history
- Search across multiple services simultaneously
- Rich document search filtering, including title, owner, created date, modified date, and folder
- Rich email search filtering, including sent date, received date, label, sender, recipients, subject line, keyword, attachment names, and within attachments

SECURE ENCRYPTION

- Data transferred over Secure Sockets Layer (SSL) encrypted connections
- HTTPS stand-alone processes running behind a firewall
- Server Side Encryption (SSE), using 128-bit Secure Sockets Layer (128-bit SSL) in transit and 256-bit Advanced Encryption Standard (256-bit AES) at rest
- Stored items only accessed by Microsoft 365 and Google Workspace applications from behind a firewall
- TRUSTe privacy and security seals
- Compliance with EU Privacy Directive

COMPLIANCE

- Multi-factor authentication governing all users
- Inability to delete/purge data from within x360Cloud
- Immutable audit logs for user, system, and backup activity
- Axcient is SOC 2 Type II certified and can help you be compliant with HIPAA and GDPR.
- Data centers available in the US, Canada, and Europe
